By signing you agree that you have released Python Guards and SmileNOW Dental from all liabilities associated usage of your custom mouth guard. You also agree that Python Guards and SmileNOW Dental is not liable for loss of teeth or any injury sustained to the oral region while wearing a product manufactured Python Guards and SmileNOW Dental.

Usage of a mouth guard serves as added protection but in no way guarantees 100% protection from tooth loss or other such injuries caused by impact to the oral region while wearing a mouth guard.

Fit of a custom mouth guard is traditionally better than boil and bite and will be a tight fit. The fit is only as good as the impression taken so results will vary from individual to individual. There is a possibility of the presence of "hot spots" which is able to be adjusted.
